ANALYST NOTE

Hera local LLM

The EVO_GG1RSISNIP_v1063 strategy on VOXR failed catastrophically, losing 32.73% of capital with a Sharpe of -1.13 and a 45.89% drawdown. A 0.0% win rate across only 4 trades indicates structural logic failure, not random variance. This sample is statistically irrelevant; the strategy is fundamentally broken. Immediate deprecation and signal logic audit are required before any further consideration.
