ANALYST NOTE

Hera local LLM

The EVO_EVOEVOEVOE_v613 strategy for VOXR suffered catastrophic failure, eroding capital by 32.73% with a -1.13 Sharpe ratio and 45.89% drawdown. A 0% win rate across only four trades indicates complete signal failure rather than statistical variance. The tiny sample size offers zero statistical confidence, rendering the results unreliable for any future prediction. Immediate deprecation is required, as the logic is fundamentally broken for this asset class.
