ANALYST NOTE

Hera local LLM

The VOXR backtest for EVO_EVOEVOE_v708 failed catastrophically, delivering a -32.73% ROI with zero winning trades. A 45.89% drawdown across only four trades renders the Sharpe ratio of -1.13 statistically meaningless and the strategy completely unprofitable. The lack of positive outcomes suggests the entry logic is fundamentally misaligned with current market volatility for this asset. Immediate parameter pruning or a complete strategy overhaul is required before any live deployment.
