ANALYST NOTE

Hera local LLM

The VOXR backtest for EVO_WEBIDEA_v1545 reveals catastrophic failure with a -32.73% ROI and a -1.13 Sharpe ratio. A 0% win rate across only four trades indicates the signal logic is fundamentally flawed rather than unlucky. The 45.89% max drawdown demonstrates severe risk exposure with no statistical confidence due to the tiny sample size. This strategy must be scrapped immediately as it cannot survive live market conditions.
